## SUBJECT INDEX

1969, Volume 44

- Abdominal pain in cystic fibrosis, treatment by oral administration of n-acetyl cysteine, 404
- Aberdeen, survey of childhood asthma, 135, *P.*
- Abnormalities, *see* Anomalies
- Accelerometer, use in phonocardiography in childhood, 545, *P.*
- n-Acetyl cysteine, oral administration in treatment of abdominal pain in cystic fibrosis, 404
- Acid-base studies in cyanotic congenital heart disease in infancy, 544, *P.*
- Acidosis, in asphyxiated newborns, use of THAM and sodium bicarbonate to correct, 318
- ACTH, adrenal response to in patients with Prader-Willi syndrome, simple obesity and constitutional dwarfism, 244
- Addis count, usefulness, 543, *P.*
- Adolescence, medical problems, International Symposium, Athens, September 26-27, 1969, 434
- Adrenocortical response to stress in newborn infants, 88
- sensitivity, application of test to bioassay of ACTH and to assessment of possible altered adrenocortical sensitivity, 780, *P.*
- Age, gestational, in newborn, assessment, 782, *P.*
- in newborn, neurological assessment, 135, *P.*
- Agglutinins, anti-IgG, in idiopathic respiratory distress syndrome of the newborn, 747
- Airshields impedance apnoea monitor, initial experience, 135, *P.*
- Alkaline phosphatase, raised plasma, in pseudohypoparathyroidism, 96
- Alkalosis, and renal salt wasting, in Fanconi's syndrome, 134, *P.*
- Amino acid, plasma, disturbance in infancy, hypermethioninaemia and transient tyrosinaemia, 418
- Ammonia intoxication due to a congenital defect in ureogenesis, and periodic attacks of lethargy in a baby, 681
- Anaemia, congenital (erythroid) hypoplastic, modified expression in males, 757
- haemolytic, acute acquired, associated with polyagglutination, 102
- megaloblastic, folic acid trends and prophylaxis in prevention, in infants of low birthweight, 136, *P.*
- Anomalies, anorectal and oesophageal, in relation to intrauterine growth rate, 59
- Apnoea, impedance monitor, initial experience, 135, *P.*
- Arachnodactyly, metacarpal index of infants, 515
- Arterial  $PO_2$ , varying levels and behaviour of retinal vessels in the newborn, 648, *P.*
- L-Asparaginase in treatment of acute leukaemia, 646, *P.*
- Asphyxia, in newborns, use of THAM and sodium bicarbonate in correcting, 318
- Asthma, childhood, in Aberdeen, 135, *P.*
- allergic: review article, 1
- arterial blood gas tensions and pH, 136, *P.*
- measurement of response to isoprenaline, 382
- effect of orciprenaline on school absenteeism, 743
- severe, 'intal' therapy, 648, *P.*
- Autosome, abnormalities of long arm of B, 106
- disease in the NZB/B1 mice, 544, *P.*
- G, monosomy for, one infant, 113
- thyroid disease in children with mongolism, 454
- Beta-lipoprotein, human, genetically determined variant Lp(a) in, frequency, 544, *P.*
- Biopsy, needle, of liver in differential diagnosis of obstructive jaundice in infancy, 545, *P.*
- Birthweight, school disposal and performance for children of different birthweight born 1953-1960, 562
- Bladders, neurogenic, alternative method of dealing with incontinence in children, 625
- in myelomeningocele, pudendal neurectomy in, 698
- Blind loop syndrome, malabsorption secondary to intestinal stasis, 76
- Blindness, associated with dysplasia spondyloepiphysaria congenita and related generalized skeletal dysplasias, 490
- Blood, capillary, arterial and arterialized, comparison, in infants with respiratory distress, 726
- viscosity in newborn infant and diagnosis and treatment of hyperviscous states, 781, *P.*
- Bone-marrow studies in 1134 children in Punjab, India, for investigation of iron stores in health and disease, 580
- Bowel, perforation, complication of exchange transfusion in newborn, 782, *P.*
- small, long-term prognosis after major resection in early infancy, 465
- Breast milk, and jaundice, estimation of steroids in milk, 782, *P.*
- Bronchial constriction, mechanism, in asthma, 780, *P.*
- Bronchiectasis, third report on a follow-up study of medical and surgical cases from childhood, 551
- Burns, pH changes in children with, 779, *P.*
- Captive mother, problems of mother staying in hospital with child, 362
- Carbamylphosphate synthetase deficiency in an infant with severe cerebral damage, 688
- Cardiofacial syndrome, congenital heart disease and facial weakness, a hitherto unrecognized association, review of 14 patients, 69
- Cephaloridine, transfer from mother to fetus, 82
- Ceporin, *see* Cephaloridine
- Cerebral damage, severe, carbamylphosphate synthetase deficiency in, 688

- Cervico-oculo-acusticus syndrome with pseudo-papilloedema, 2 patients, 504
- Chest cage, small, thoracic dystrophy, 2 cases, 11
- Chloridorrhea, congenital, 647, *P.*
- Chlormethiazole, heavy dosage, and neonatal drug depression and respiratory distress managed by positive pressure ventilation and exchange transfusion, 509
- Cirrhosis, extrahepatic features in young Indian children, 648, *P.*
- Coeliac disease and cystic fibrosis in one infant, 533
- Cold stress, in infants of low birthweight, temporary loss of a metabolic response, 323
- Convulsions, neonatal, hypocalcaemia in, 356
- Cor pulmonale as a result of chronic nasopharyngeal obstruction due to hypertrophied tonsils and adenoids, 585
- CORRESPONDENCE: Intelligence and retinoblastoma, 784
- Hazards of enuresis alarms, 285, 651
- Salt-losers and non salt-losers in congenital adrenal hyperplasia, 138
- Cortical and trabecular bone, effects of kwashiorkor on, 705
- Cyanotic congenital heart disease in infancy, acid-base studies, 544, *P.*
- Cystathionine synthetase, incorporation of methionine sulphur into cysteine *in vitro* by fibroblasts deficient in, 779, *P.*
- Cystic fibrosis, abdominal pain in, treatment by oral administration of *n*-acetyl cysteine, 404
- — assessment of medium-chain triglyceride feeding, 401
- — blood glucose and serum insulin levels in, 351
- — and coeliac disease in one infant, 533
- — and disaccharides, investigation of 17 children, 63
- — pilot trial of an infant screening programme, measurement of parotid salivary sodium at 4 months, 715
- — pulmonary complications, prevention and treatment, 646, *P.*
- — simplified nail clipping test for, 218
- — ventilatory function, physiological assessment of inhalation therapy, 393
- Deaths of children in Greater London, 1966, 647, *P.*
- Dementia of unknown origin and sphingomyelin of red blood cells in lipidosis, 197
- Depression of delayed hypersensitivity, new hypothesis, 545, *P.*
- Development, articulatory, testing, 646, *P.*
- early, in psychotic children, 645, *P.*
- Diabetes, relation between insulin levels and glucose disappearance in normal and diabetic patients, 543, *P.*
- Diabetic mothers, prognosis for babies born to, Edinburgh, 36
- Diarrhoea, in acute kwashiorkor, effect of different sugars, 593
- Diazepam, status epilepticus in infants and young children treated by, 604
- Disaccharides and cystic fibrosis of the pancreas, investigation of 17 children, 63
- Duane's syndrome, and cervico-oculo-acusticus syndrome with pseudopapilloedema, 2 patients, 504
- Duchenne muscular dystrophy, intelligence and the gene for, 221
- Durban, typhoid fever in African and Indian children, 18
- Dwarfism, diastrophic, clinical features, treatment, four cases, 48
- low birthweight, with asymmetry (Silver's syndrome): treatment with human growth hormone, 231
- Dysphagia, sucking and swallowing, diagnostic problem of: review article, 655
- Dysplasia spondyloepiphysaria congenita and related generalized skeletal dysplasias among children with severe visual handicaps, 490
- Electrolyte control in a combined artificial membrane lung-kidney for use in treatment of respiratory distress, 646, *P.*
- Enuresis alarms, hazards: correspondence, 285, 651
- Eyes, photography, in the newborn, 499
- Facial weakness and congenital heart disease, cardio-facial syndrome, a hitherto unrecognized association, review of 14 patients, 69
- Fanconi's syndrome with renal salt wasting and alkalosis, 134, *P.*
- Fetus, rat, use in experimental teratology, 781, *P.*
- Fibrin/fibrinogen degradation products in sera of normal infants and children, 761
- Finger length, metacarpal index of infants, 515
- Folate state of premature infants, 637
- Folic acid trends and prophylaxis in prevention of megaloblastic anaemia of infants of low birthweight, 136, *P.*
- Ganglioside pattern of brain, with subacute sclerosing panencephalitis, an infantile case, 187
- Gastric atrophy in childhood, 710
- Germ-free neonate, care and observation, 211
- patient care, 137, *P.*
- Gigantism, cerebral, Sotos' syndrome, 2 cases and review of 43, 203
- Glial tissue, ectopic, in the occipital scalp, 428
- Glucose, blood, and serum insulin levels in cystic fibrosis, 351
- Glucose-6-phosphate dehydrogenase (G6PD) and pyruvate kinase deficiency, screening, Chinese newborn in Hong Kong, 373
- Glycogen diseases, liver, screening method, 311
- Granulomatous disease, chronic, nitro-blue tetrazolium test, 646, *P.*
- Graves's disease complicated by raised intracranial pressure due to premature fusion of skull sutures, 252
- Greater London, deaths of children in 1966, 647, *P.*

- Growth and development, school disposal and performance for children of different birthweight born 1953-1960, 562
- in children with thalassaemia major and effect of two different transfusion regimens, 612
- of Lebanese infants in the first year of life, 131
- retardation, intrauterine, biochemical aspects, 136, *P.*
- — — experimental models, 648, *P.*
- Haematuria, recurrent, in childhood, 5-year follow up, 483
- Haemolytic disease of the newborn, hypoglycaemia complicating, 248
- Heart disease, congenital, and facial weakness, cardio-facial syndrome, a hitherto unrecognized association, review of 14 patients, 69
- Hermaphroditism, true, or gonadal intersexuality, cytogenetic and gonadal analyses of 5 new examples related to 67 known cases studied cytogenetically, 666
- Hip-joint at birth, morphology and pathology, 135, *P.*
- Hirschsprung's disease, autonomic nerves in rectum and colon in, cholinesterase and catecholamine histochemical study, 406
- — — simplified method for diagnosis, 694
- Histamine levels, plasma, during first week of life, 487
- Homocystinuria, treatment with pyridoxine, 387
- Hormone excretion in premenarcheal girls, 629
- Hospital, mother staying with child, problems, 362
- Human growth hormone, in treatment of low birth-weight dwarfism with asymmetry (Silver's syndrome), 231
- Hyaline membrane disease, hypoxaemia during recovery from, 646, *P.*
- — — and pulmonary surfactant, 646, *P.*
- Hydrocephalus, infantile, surgically treated, influence of aetiology on prognosis, 29
- and mongolism, 5-hydroxyindoles in, 783, *P.*
- treatment using saphenous vein homograft, 422
- 5-Hydroxyindoles in mongolism and hydrocephalus, 783, *P.*
- Hydroxylysineuria, 2 cases in one family, 134, *P.*
- Hydroxyproline creatinine ratio, urinary, normal term, pre-term, and growth-retarded infants, 517
- Hyperammonaemia, a deficiency of liver ornithine transcarbamylase, occurrence in mother and child, 152
- — — variant type, 163
- due to ornithine transcarbamylase deficiency, 143
- peritoneal dialysis in the reduction of blood ammonia levels, 149
- Hypermethioninaemia and transient tyrosinaemia in infancy, 418
- Hyperparathyroidism, mild, in 9-year-old girl, 521
- Hyperplasia, adrenal, congenital, salt-losers and non salt-losers in (correspondence), 138
- intestinal nodular, thrombocytopenia, hypoinmunoglobulin G, and hyperimmunoglobulin M, an unusual association in a 2-year-old child, 621
- Hypersensitivity, delayed, depression, new hypothesis, 545, *P.*
- Hyperviscous states, diagnosis and treatment, blood viscosity in newborn infant, 781, *P.*
- Hypocalcaemia, significance in neonatal convulsions, 356
- Hypoglycaemia, caused by childhood insulinoma, diagnosis and treatment of one case, 435
- complicating haemolytic disease of the newborn, 248
- in kwashiorkor, 543, *P.*
- in small-for dates newborns, 304
- Hypoinmunoglobulin G, hyperimmunoglobulin M, intestinal nodular hyperplasia, and thrombocytopenia, an unusual association in 2-year-old child, 621
- Hypoxaemia during recovery from hyaline membrane disease, 646, *P.*
- Hypoxia, acute, effect on blood pressure and electroencephalogram of newborn babies, 719
- Icterus neonatorum, urinary potassium excretion in newborns with and without, 738
- Idiopathic hypoproteinaemia syndrome, in infant with small intestinal lymphangioma, 527
- Immunoglobulins, serum, in kwashiorkor, 600
- — — in marasmic infants, 120
- Incontinence, an alternative way of dealing with children with neurogenic bladders, 625
- Inhalation therapy, physiological assessment in cystic fibrosis, 393
- Insulin levels and glucose disappearance in normal and diabetic patients, 543, *P.*
- — — serum, and blood glucose in cystic fibrosis, 351
- Insulinoma, childhood, diagnosis and treatment of one case, 435
- 'Intal' therapy in severe childhood asthma, 648, *P.*
- Intelligence and retinoblastoma (correspondence), 784
- Intersexuality, gonadal, or true hermaphroditism, cytogenetic and gonadal analyses of 5 new examples related to 67 known cases studied cytogenetically, 666
- Interstitial cell tumour of the testis, causing macrogenitosomia praecox, 84
- Intracranial tumour, sexual precocity due to, and unusual testicular secretion of testosterone, 732
- Intrauterine growth rate in relation to anorectal and oesophageal anomalies, 59
- — — retardation, biochemical aspects, 136, *P.*
- — — experimental models, 648, *P.*
- Iron stores in health and disease, bone marrow studies in 1134 children in Punjab, India, 580
- Ischaemic heart disease and myocardial infarction, in infants and children, analysis of 29 cases and review of the literature, 268
- Isoprenaline, measurement of response in asthmatic children, 382
- Jaundice, caused by human breast milk, estimation of steroids, 782, *P.*
- obstructive, needle biopsy of liver in differential diagnosis, infancy, 545, *P.*

- Kidney, effect of malnutrition and dietary practices on concentrating capacity, 648, *P*.
- Kwashiorkor, acute, effect of different sugars on diarrhoea of, 593
- effects on cortical and trabecular bone, 705
- hypoglycaemia in, 543, *P*.
- plasma and red cell iron turnover in protein calorie malnutrition, 124
- serum immunoglobulins in, 600
- Lead, factors influencing exposure of children to, danger in homes, 476, 544, *P*.
- Lebanese infants, growth in first year of life, 131
- Lethargy, periodic attacks in a baby with ammonia intoxication due to a congenital defect in ureogenesis, 681
- Leucodystrophy, metachromatic, diagnosis and carrier detection by measurement of leucocyte arylsulphatase-A activity, 648, *P*.
- Leukaemia, acute, L-asparaginase in treatment, 646, *P*.
- Lipidosis with adrenal calcification, Wolman's disease, 2 cases, 331
- sphingomyelin of red blood cells in, and in dementia of unknown origin in children, 197
- Lipids, serum and adipose tissue, in children receiving medium-chain triglyceride diets, 180
- Lipodystrophy, observations on fat and carbohydrate metabolism, 779, *P*.
- total, 6-month-old male, 368
- Lipoprotein lipase activity in marasmic type of protein-calorie malnutrition, 765
- Liver glycogen diseases, screening method, 311
- Lp(a) variant of human serum  $\beta$ -lipoprotein, frequency, 544, *P*.
- Lymphangioma, of small intestine, in infant with idiopathic hypoproteinaemia syndrome, 527
- Lysozyme (muramidase) excretion in children, 780, *P*.
- Macrogenitosomia praecox due to an interstitial cell tumour of the testis, 84
- Malabsorption, use of medium-chain triglyceride diets, 170
- Malarial antibody, distribution in maternal and cord sera, 511
- Malnutrition, marasmic, serum levels of immunoglobulins in, 120
- protein calorie, plasma and red cell iron turnover in, 124
- Marasmic infants, red cell and plasma iron turnover in protein calorie malnutrition, 124
- serum levels of immunoglobulins in, 120
- lipoprotein lipase activity in, 765
- Marfan's syndrome, and metacarpal index of infants, 515
- Medium-chain triglyceride diets, in children with malabsorption, 170
- — — — — serum and adipose tissue lipids in children receiving, 180
- — — — — assessment in cystic fibrosis, 401
- Metacarpal index of infants, and diagnosis of arachnodactyly and Marfan's syndrome, 515
- Methionine sulphur, incorporation into cysteine *in vitro* by fibroblasts deficient in cystathionine synthetase, 779, *P*.
- Mongolism, autoimmune thyroid disease in children with, 454
- and hydrocephalus, 5-hydroxyindoles in, 783, *P*.
- Monosomy for a G autosome, one infant, 113
- Mother and child in hospital, problems, 362
- Motor nerve conduction velocity in newborn, 782, *P*.
- Muramidase (lysozyme) excretion in children, 780, *P*.
- Muscular dystrophy, Duchenne, intelligence and the gene for, 221
- Myelinolysis, central pontine, in childhood and adolescence, 342
- Myelomeningocele, pudendal neurectomy in management of neurogenic bladder, 698
- Myocardial infarction and ischaemic heart disease in infants and children, analysis of 29 cases and review of the literature, 268
- Mysoline *see* Primidone
- Nail clipping test, simplified, for diagnosis of cystic fibrosis, 218
- Nakedness, and minimal thermal stress for the newborn, 647, *P*.
- Nasal obstruction in the newborn, 543, *P*.
- Neonatal drug depression and respiratory distress managed by positive pressure ventilation and exchange transfusion, use of chlormethiazole in heavy dosage, 509
- Nephrotic syndrome, childhood, selectivity of proteinuria in, 461

The first part of the paper discusses the importance of the study of the history of the United States. It is argued that a knowledge of the past is essential for a full understanding of the present. The author then goes on to discuss the various factors that have shaped the development of the United States, including the role of the government, the economy, and the culture. The paper concludes by suggesting that a study of the history of the United States is not only a valuable academic exercise, but also a necessary one for anyone who wishes to understand the world in which we live.

The second part of the paper is a detailed analysis of the role of the government in the development of the United States. It begins by discussing the early years of the nation, when the government was a small, weak entity. It then goes on to discuss the growth of the government over the years, as it took on more and more responsibilities. The author argues that the government has played a crucial role in the development of the United States, and that it is essential for the future of the nation. The paper concludes by suggesting that the government should continue to play a strong role in the development of the United States.

The third part of the paper is a discussion of the role of the economy in the development of the United States. It begins by discussing the early years of the nation, when the economy was a simple, agrarian one. It then goes on to discuss the growth of the economy over the years, as it became more and more industrialized. The author argues that the economy has played a crucial role in the development of the United States, and that it is essential for the future of the nation. The paper concludes by suggesting that the economy should continue to play a strong role in the development of the United States.

The fourth part of the paper is a discussion of the role of the culture in the development of the United States. It begins by discussing the early years of the nation, when the culture was a simple, rural one. It then goes on to discuss the growth of the culture over the years, as it became more and more urbanized. The author argues that the culture has played a crucial role in the development of the United States, and that it is essential for the future of the nation. The paper concludes by suggesting that the culture should continue to play a strong role in the development of the United States.
